

Influenza

SURVEILLANCE REPORT

CDC Week 44: Week Ending Saturday, November 4, 2017

Vaccination is the best way to protect against influenza infection.
 All Winnebago County residents aged six months and older should be vaccinated annually.

Weekly Influenza Activity Summary: This week’s surveillance activities identified two (2) cases of influenza in the County as detailed in this report. Influenza surveillance for Winnebago County involves the weekly collection of data from surveillance partners including hospitals, physicians, clinics, long term care (LTC) facilities and laboratories. Thank you to all of the surveillance partners for their help in collecting this information.

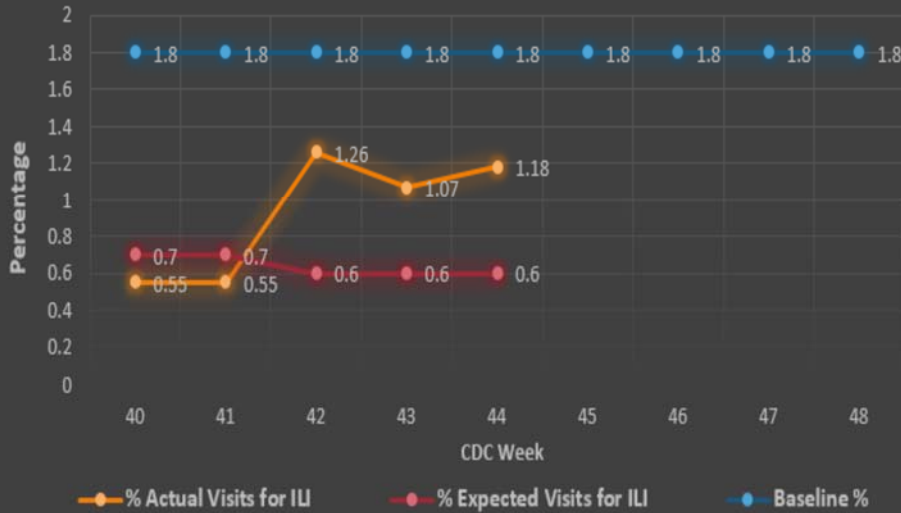

Total Number of Influenza Cases for the Reporting Week By Age Distribution			
Age Range	Influenza A	Influenza B	Influenza A&B
0-4	0	0	0
5-17	0	0	0
18-64	0	2	0
65+	0	0	0
TOTALS	0	2	0
